

Keep your treatment records online

If you receive home treatment/home delivery regularly then you will have agreed to complete and return accurate home treatment records in order that your haemophilia can be assessed and monitored.

Instead of having to remember to complete this information on paper and then bring it into the Haemophilia Centre, why not log on instead to

www.haemtrack.nhs.uk

Haemtrack:

- Is a secure web based data management service connecting you to your Haemophilia Centre
- Allows you to record all treatments
- Allows your Centre to see your up to date information to help improve your care

If you have access to a computer, why not take a look at this system? It's quick, secure and very user friendly! It takes no time to keep your records up to date. If you are interested, complete the simple registration steps, which will register your interest with your Centre and once accepted, you can begin to enter your data immediately. Your data is then sent directly to your Haemophilia Centre where it can be viewed by authorised personnel only.

It is important that your haemophilia centre has your information on how you treat yourself in order that they can maintain the best possible treatment for you.

Also, Haemtrack ensures that

- Continuous bleeding problems can be identified and therefore any additional treatment given quickly by staff.
- Recurrent problems can be discussed with staff at clinic visits.
- Target joints can be identified and discussed with your doctor.
- Information you enter can be viewed/ reviewed by you and your clinician at clinic visits.

If you have any questions regarding Haemtrack, please contact your Haemophilia Centre and discuss these with your Haemophilia Data Manager or Nurse Specialist.
